

**Spring 2024**  
**After-School Enrichment**

**SABRECATS**

**Mission:** To give students a safe, secure place to enjoy after school activities that enrich their lives.

Dear Summit Families,

Summit School is committed to providing a rich variety of high quality learning experiences. We have once again partnered with businesses and organizations that share our vision for enriching children's learning to provide many special interest classes and this spring we have added several new after-school activities. The purpose of these clubs is to extend your child's learning and social relationships beyond the school day.

Regards,

Craig Kroupa  
Athletic/Activities Director  
Summit School

# **General Enrichment Information**

## **What Time Do Enrichment Classes Occur?**

The time for each specific enrichment class will be noted in their advertisement. Please be aware that students not picked up at the end of an enrichment class will be taken to Extended Day. Extended Day fees will then apply

## **How Does My Child Get To Enrichment Classes?**

Enrichment Providers will pick students up from the MPR at the end of the school day and bring them to their assigned classrooms.

## **Where Do I Pick My Student Up?**

Please pick your student up at the location of the class indicated on the enrichment provider's flyer. You should enter from the blue gate at the front of the school using your key fob.

## **How Do I Register My Child For A Class?**

Please see each enrichment provider's page for information on how to register and pay. We would prefer that parents pay the vendors directly, and not through the front desk.

## **Activity Waiver Form**

All After-School Enrichment enrollees must have a "Summit Activity Waiver Form" on file before participating in the class. Please bring these forms to your enrichment provider on the first day of class.

## **Who Can I Contact With Questions?**

Please contact Summit's Athletic/Activities Director, Craig Kroupa, with any questions regarding after school activities.

# **Bricks 4 Kidz**

## **LEGO®**

### **Engineering K-4th grade**

#### **THEMES FOR THE FALL SESSION : Amusement Park/Gizmos & Gadgets**

This is a hands-on class where students will build *motorized* models out of LEGO® bricks. While exploring engineering, architecture and physics, students will develop problem solving and critical thinking skills. Students will use LEGO Bricks, axles, pulleys, gears, and motors to create fun and interactive models. Delve into the history and mechanics of favorite amusement park rides in this imaginative unit. Students will construct a Carousel Swing, Tilt a Whirl, Loop de Loop ride, Swing boat ride, and Merry Go Round. Lessons incorporate principles of physics, described in a way children can understand, such as “G-force” inertia and momentum, as well as math concepts such as “there are 360 degrees in a circle”. These engaging lessons will give students an understanding of the physical forces they experience every day!

Don't miss out on all the exiting LEGO® action in this session, Enroll now!

Teaching mindfulness to youth can create calm, level headed future leaders but who says we can't have fun while doing it? This supportive introduction to Yoga and Mindfulness is designed for kids in grades PreK-4th. Participants enjoy access to fun, engaging classes that teach the basics of good health habits, mindful awareness, and positive perceptions. Through this session, participants practice breathing exercises, yoga poses, visualizations, relaxation activities, and we couldn't call it fun without games! Our educated instructors teach resilience, empowering students through the toughest and most mundane experiences in life. Mats are not provided.
